

February 13, 2017

Dear Mike Hinkley,

This letter is being written to share with you our support for the Books4Kids program. During the past school year our East Shore Leadership Academy students have been directly exposed to Books4Kids Program.

All of the K-5 students love to receive free monthly books that are of “high interest” from the Books4Kids program. The books enable each individual student to increase their book availability at home while increasing the growth of their own personal library as well.

In summary, our students enjoy the Books4Kids program. The students love the end-in-mind of being able to pick out their own books that meet their own individual interest, which we believe is one of the most positive aspects of the program.

At East Shore Leadership Academy it is essential to continue offering the Books4Kids program to our students who would otherwise not be able to obtain books for themselves. Thank you.

Sincerely,

Deanna Keller
East Shore Leadership Academy Principal
